

BUNI INNOVATION HUB COMPANY PROFILE

Buni Innovation Hub is the first Innovation Space established in Tanzania under the Commission for Science and Technology (COSTECH), Buni is primarily focused on strengthening the innovation ecosystem through coordination and support to the innovation enablers (innovation spaces) and startups.

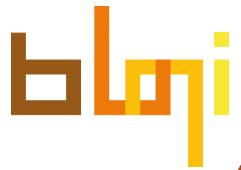

Buni has been a home to over 10000 youth and 20+ innovation spaces that has been the beneficiary of the innovation services offered by Buni Hub. Since it Started, Buni has swayed the vibrant innovation ecosystem that resulted in the growth of innovation

Buni Innovation Hubs has invested in creating a growth of local and international partnerships such as AfriconEu, STARTS4Africa, Andela, Google, SiiLi Solutions, Wikimedia, FutureRice, Launch League, AfriLabs, SAIC among others. These partnerships had direct impact to the innovation spaces and startups who are Buni Beneficiaries.

WHAT WE DO

i) Capacity Building to new Spaces

ii) Mentorship to the existing Spaces

iii) Buni Talent Pool program

iv) Buni Divaz Programs

v) Linkages and Networking

WHAT WE DO

Capacity Building to New Innovation Space: This program focuses on supporting institutions to establish their innovation space. This is a tailor-made program that helps the institutions to understand the “Best Practices” on how to establish innovation space: The Program also link new spaces with different opportunities to uptake their space and the potential ecosystem stakeholders.

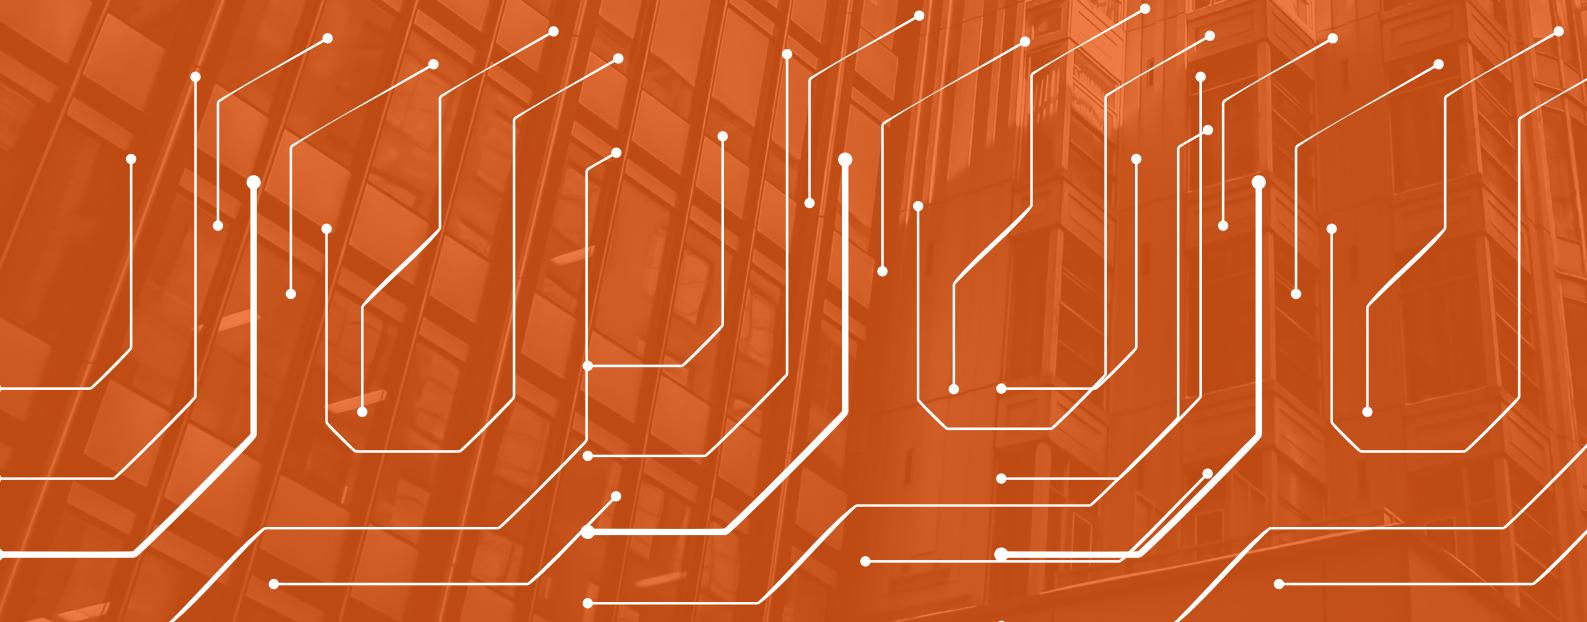

WHAT WE DO

Mentorship to Existing Spaces: The program supports the existing spaces through mentorship. The support is tailored according to the needs of the Hub in question.

Buni Talent Pool Program: The program focuses on building talents with brilliant ideas that can have an impact on the community and can be useful to help companies to accelerate the work they do. The ideas supported are from different sectors that includes Blue Economy, Education, Agriculture, Industries, to mention a few.

WHAT WE DO

Buni Divas Program: This program is designed to increase women involvement in Technology, Innovation and Entrepreneurship. It also aspires to encourage a safe space for women participation in the Innovation Ecosystem. Program elasticities: Mentorship and Capacity Building to women, it helps women grow their businesses from early stage to the market

Linkages and Introduction: This program link and introduce our beneficiaries with potential stakeholders and government locally and international level.
